AI Readiness, Security, and Governance Assessment for Microsoft 365 2-WEEK ASSESSMENT

PulseOne helps organizations assess their AI readiness, security setup, and data governance controls before introducing AI tools into their Microsoft 365 environment.

As employees increasingly use AI tools - whether Microsoft 365 Copilot or external AI applications - the risk of data leakage, compliance violations, and ungoverned AI use grows significantly. Safe AI adoption requires more than a technology decision. It requires a solid security foundation, a clear data governance framework, and confidence that your environment is configured to protect sensitive information before AI tools can access it.

> The PulseOne AI Readiness, Security, and Governance Assessment for Microsoft 365 evaluates all three dimensions: your technical readiness for AI tools, your current security setup as it relates to AI risk, and the governance policies and controls needed to manage AI use responsibly across your organization.

WHAT WE DO

We conduct a structured review of your Microsoft 365 environment across three workstreams - AI readiness, security, and governance - to identify gaps and provide a prioritized roadmap for safe, responsible AI adoption.

WHO THIS IS FOR

- Small and mid-sized businesses running Microsoft 365
- Leaders who want a straight answer on where they stand

KEY DELIVERABLES

- Microsoft 365 licensing and feature readiness review for Copilot and AI tools
- User and workflow use case identification for AI adoption
- Technical prerequisites assessment (licensing, Entra ID, Teams, SharePoint)
- Microsoft Secure Score review as it relates to AI risk

Full deliverable list provided with your proposal.

WHAT IS NOT INCLUDED

- Implementation of sensitivity labels, DLP policies, or data governance controls
- Fixes of oversharing or permissions issues
- Deep data discovery or automated data classification
- Compliance certification or regulatory audit support
- Microsoft 365 Copilot license procurement or deployment

Full exclusion list provided with your proposal.
