Information Protection Assessment for Microsoft Purview

2-WEEK ASSESSMENT

PulseOne helps organizations assess their data security and compliance readiness using Microsoft Purview to protect sensitive information across the enterprise.

Protecting sensitive data-such as financial records, PII, or intellectual property-is critical, but you cannot protect what you cannot see. As data flows across emails, Teams chats, and endpoints, maintaining control and compliance becomes increasingly difficult.

> The PulseOne Microsoft Purview Information Protection Assessment helps you discover where your sensitive data lives and provides a roadmap for securing it.

WHAT WE DO

We evaluate your environment to identify sensitive data locations and review your readiness to implement Microsoft Purview features like sensitivity labels and Data Loss Prevention (DLP).

KEY DELIVERABLES

- Sensitive data discovery analysis
- Review of current data protection policies
- Readiness assessment for Microsoft Purview implementation
- Roadmap for sensitivity labels and DLP
- Executive presentation

WHO THIS IS FOR

- Small and mid-sized businesses running Microsoft 365
- Leaders who want a straight answer on where they stand

WHAT IS NOT INCLUDED

- Implementation of sensitivity labels, DLP policies, or information barriers
- Automated data classification or deep data discovery scanning
- Compliance certification or regulatory audit preparation
- eDiscovery or legal hold configuration
- Licensing purchases or procurement
- Ongoing data governance administration or managed services
- Custom development or integration with third-party compliance tools
- Legal review of data handling or privacy obligations

ENGAGEMENT APPROACH

Discover	Assess	Recommend	Handoff
Understand compliance requirements and sensitive data types.	Conduct a data discovery exercise and evaluate current controls.	Develop a roadmap for implementing Microsoft Purview.	Present findings and discuss information protection implementation.

BUSINESS VALUE

Reduce the risk of data breaches, ensure compliance with industry regulations, and establish a foundation for secure internal and external collaboration.

AT A GLANCE

Duration	2 Weeks
Price	$3,500-$6,000
Solution areas	Cloud Security, Compliance

Request an assessment.
