Security Posture Assessment for Microsoft Azure

2-WEEK ASSESSMENT

PulseOne helps organizations evaluate their Azure infrastructure to identify vulnerabilities, ensure compliance, and strengthen their cloud security setup.

Securing cloud infrastructure requires a different approach than securing on-premises servers. Misconfigured network security groups, exposed storage accounts, and excessive administrative permissions are common vulnerabilities in Azure environments.

> The PulseOne Azure Security Posture Assessment evaluates your cloud infrastructure to ensure your data and applications are protected against modern threats.

WHAT WE DO

We review your Azure environment using Microsoft Defender for Cloud, analyzing network security, identity and access management, and data protection configurations.

KEY DELIVERABLES

- Azure security configuration review
- Vulnerability and misconfiguration analysis
- Identity and access management audit
- Prioritized fixes roadmap
- Executive presentation

WHO THIS IS FOR

- Small and mid-sized businesses running Microsoft 365
- Leaders who want a straight answer on where they stand

WHAT IS NOT INCLUDED

- Fixes or reconfiguration of Azure resources or security controls
- Architecture redesign or implementation
- Penetration testing or active vulnerability exploitation
- Deep log analysis or Security Information and Event Management (SIEM) review
- Compliance certification or regulatory audit preparation
- Licensing purchases or procurement
- Ongoing Azure security monitoring or managed services

Full exclusion list provided with your proposal.

ENGAGEMENT APPROACH

Discover	Assess	Recommend	Handoff
Understand current Azure architecture and security requirements.	Analyze configurations using Defender for Cloud and security best practices.	Build a prioritized roadmap for security fixes.	Present findings and discuss implementation of security controls.

BUSINESS VALUE

Reduce the risk of a cloud breach, ensure your Azure environment meets industry compliance standards, and establish a secure foundation for future cloud workloads.

AT A GLANCE

Duration	2 Weeks
Price	$4,000-$7,200
Solution areas	Cloud Security, Azure
