# Copilot Readiness Assessment for Microsoft 365

## 2-WEEK ASSESSMENT

**PulseOne helps organizations evaluate their technical, security, and data readiness to safely and effectively deploy Microsoft 365 Copilot.**

Generative AI promises massive productivity gains, but deploying Microsoft 365 Copilot without proper preparation can expose sensitive data and lead to poor user adoption. Before turning on Copilot, you must ensure your data is governed, your permissions are strict, and your users are ready.

> The PulseOne Microsoft 365 Copilot Readiness Assessment provides a thorough review of your environment to ensure a secure, successful AI rollout.

### WHAT WE DO

We evaluate your Microsoft 365 environment focusing on three pillars: technical prerequisites, data security (preventing oversharing), and organizational readiness.

### KEY DELIVERABLES

- Technical prerequisite validation
- Data security and permissions risk analysis
- Licensing requirements review
- AI adoption and change management roadmap
- Executive presentation

### WHO THIS IS FOR

- Small and mid-sized businesses running Microsoft 365
- Leaders who want a straight answer on where they stand

### WHAT IS NOT INCLUDED

- Microsoft 365 Copilot license procurement or deployment
- Fixes of data permissions or oversharing issues
- Implementation of sensitivity labels or data loss prevention policies
- User training or change management program delivery
- Deep data classification or data discovery exercises
- Compliance certification or regulatory audit support
- Ongoing Copilot administration or managed services
- Custom AI model development or integration

### ENGAGEMENT APPROACH

| Discover | Assess | Recommend | Handoff |
|---|---|---|---|
| Understand business goals for AI and review current Microsoft 365 usage. | Analyze technical readiness, data permissions, and security controls. | Develop a fixes plan for data governance and an adoption strategy. | Present findings and discuss fixes or pilot deployment services. |

### BUSINESS VALUE

This assessment mitigates the risk of exposing sensitive data to AI tools and provides a structured plan to ensure your investment in Copilot drives actual business value.

### AT A GLANCE

| | |
|---|---|
| Duration | 2 Weeks |
| Price | $4,000-$7,200 |
| Solution areas | Microsoft 365 Copilot, Adoption & Change Management |
