Governance Assessment for Microsoft Teams and SharePoint 2-WEEK ASSESSMENT

PulseOne helps businesses regain control of Microsoft Teams and SharePoint by establishing clear governance, structure, and lifecycle management.

Without proper governance, Microsoft Teams and SharePoint can quickly turn into a chaotic sprawl of abandoned groups, duplicate files, and confusing navigation. This sprawl frustrates users, complicates IT management, and creates significant data security risks.

> The PulseOne Microsoft Teams and SharePoint Governance Assessment helps you untangle the mess and establish rules for how collaboration tools should be used.

WHAT WE DO

We analyze your current Teams and SharePoint architecture, review site creation processes, and identify abandoned or redundant workspaces. We then help you define practical governance policies.
