Quick-Win Automation Assessment for Microsoft Power Automate 1-WEEK ASSESSMENT

PulseOne helps SMBs identify manual, repetitive tasks that can be easily automated using Microsoft Power Automate to save time and reduce errors.

Your team likely spends hours every week on repetitive tasks-moving data between spreadsheets, managing approval workflows, or sending routine notification emails. These manual processes waste time and are prone to errors.

> The PulseOne Microsoft Power Automate Quick-Win Assessment helps you identify specific, high-impact processes that can be automated using the Power Platform tools you already own.

WHAT WE DO

We interview key stakeholders to uncover manual bottlenecks and evaluate them for automation feasibility using Power Automate. We focus on identifying "quick wins" that can be implemented rapidly.

KEY DELIVERABLES

- Process bottleneck identification
- Automation feasibility analysis
- Identification of top 3 "quick win" automation opportunities
- Implementation roadmap and ROI estimate
- Executive presentation

WHO THIS IS FOR

- Small and mid-sized businesses running Microsoft 365
- Leaders who want a straight answer on where they stand

WHAT IS NOT INCLUDED
