Secure Score Review for Microsoft 365 1-WEEK ASSESSMENT

PulseOne helps SMBs review and understand their Microsoft Secure Score so they can quickly identify and prioritize critical security improvements.

Your Microsoft Secure Score is a built-in measurement of your organization's security setup, but understanding how to improve it without disrupting user productivity can be challenging. Many businesses see a low score but lack the time or expertise to safely implement the recommended changes.

> The PulseOne Microsoft 365 Secure Score Review is a fast, focused engagement designed to demystify your score and give you a practical action plan.

WHAT WE DO

We analyze your current Secure Score across the identity, devices, apps, and data categories. We identify "quick wins" that can significantly improve your setup with minimal user impact, and we flag complex changes that require careful planning.

WHO THIS IS FOR

- Small and mid-sized businesses running Microsoft 365
- Teams that need to review and understand their Microsoft Secure Score
- Leaders who want to quickly identify and prioritize critical security improvements

KEY DELIVERABLES

- Analysis of current Microsoft Secure Score
- Identification of completed controls not yet reflected in the score
- Top 10 prioritized actions ranked by impact and effort
- Written findings report and 60-minute executive presentation

WHAT IS NOT INCLUDED

- Implementation of any Secure Score improvement actions
- Configuration changes to policies or security controls
- Deep forensic or log analysis
- Compliance certification or regulatory audit support
- Licensing purchases or procurement
- Ongoing security monitoring or managed services
- Custom scripting or automation development

ENGAGEMENT APPROACH

Discover	Assess	Recommend	Handoff
Review current Secure Score and business requirements.	Analyze the gap between current and maximum possible score.	Prioritize the most impactful, least disruptive improvements.	Deliver the action plan and discuss implementation support.

BUSINESS VALUE

Gain immediate visibility into your security setup and walk away with a prioritized, practical list of actions to reduce your attack surface.

AT A GLANCE

Duration	1 Week
Price	$2,500-$4,200
Solution areas	Cloud Security, Threat Protection

Start with a practical review.
Reach out to set up a 15-minute discovery call.
