Business Premium Value Assessment for Microsoft 365

1-WEEK ASSESSMENT

PulseOne helps SMBs maximize the value of their Microsoft 365 Business Premium licenses by identifying unused security, device management, and productivity features.

Microsoft 365 Business Premium is a powerful suite designed specifically for SMBs, but many organizations use it only for email and Office apps. By leaving the advanced security and device management features unconfigured, you are paying for tools you aren't using while potentially paying third-party vendors for overlapping services.

> The PulseOne Microsoft 365 Business Premium Value Assessment helps you understand exactly what you own and how to deploy it to consolidate costs and improve security.

WHAT WE DO

We audit your current Microsoft 365 Business Premium usage against its full capability set, focusing on Defender for Business, Intune, and Entra ID P1 features.

KEY DELIVERABLES

- License utilization analysis
- Identification of overlapping third-party tools
- Security and management feature gap analysis
- Prioritized deployment recommendations
- Executive presentation

WHO THIS IS FOR

- Small and mid-sized businesses running Microsoft 365
- Leaders who want a straight answer on where they stand

WHAT IS NOT INCLUDED

- Deployment or configuration of any Microsoft 365 Business Premium features
- Removal or migration away from existing third-party tools
- Licensing purchases, changes, or procurement
