License Utilization Review for Microsoft 365 1-WEEK ASSESSMENT

PulseOne helps businesses audit their Microsoft 365 licensing to identify wasted spend, optimize subscriptions, and ensure users have the right tools.

Managing Microsoft 365 licenses across a growing or changing organization often leads to wasted spend. You may be paying for inactive users, assigning premium licenses to users who only need basic access, or purchasing standalone tools that are already included in your Microsoft suite.

> The PulseOne Microsoft 365 License Utilization Review provides a detailed audit of your current licensing to help you optimize costs.
