Readiness Assessment for Microsoft Defender for Business

1-WEEK ASSESSMENT

PulseOne helps SMBs evaluate their readiness to deploy Microsoft Defender for Business to protect endpoints against ransomware and advanced threats.

Traditional antivirus software is no longer enough to protect small and mid-sized businesses from ransomware and sophisticated cyber threats. Microsoft Defender for Business provides enterprise-grade endpoint security, but deploying it requires careful planning to ensure all devices are covered and policies are correctly configured.

> The PulseOne Microsoft Defender for Business Readiness Assessment helps you prepare your environment for a successful deployment of modern endpoint protection.

WHAT WE DO

We evaluate your current endpoint security landscape, review your Microsoft 365 licensing, and determine the technical prerequisites required to roll out Defender for Business across your organization.
