Environment Optimization Review for Microsoft 365

2-WEEK ASSESSMENT

PulseOne helps organizations review their overall Microsoft 365 architecture to resolve performance issues, improve administration, and align with best practices.

As organizations grow, their Microsoft 365 environments often become complex and difficult to manage. Organic growth, mergers, or rushed deployments can result in fragmented administration, poor performance, and frustrated users.

> The PulseOne Microsoft 365 Environment Optimization Review provides a holistic health check of your tenant architecture, identifying structural issues and administrative inefficiencies.

WHAT WE DO

We take a thorough look at your tenant configuration, administrative roles, domain architecture, and core service health (Exchange, Teams, SharePoint) to identify optimization opportunities.

WHO THIS IS FOR

- Small and mid-sized businesses running Microsoft 365
- Leaders who want a straight answer on where they stand

KEY DELIVERABLES

- Tenant architecture and health review
- Administrative role and access audit
- Core service configuration analysis
- Prioritized optimization roadmap
- Executive presentation

WHAT IS NOT INCLUDED

- Fixes or reconfiguration of the tenant environment
- Migration of data, users, or workloads
- Architecture redesign or implementation
- Deep log analysis or performance diagnostics beyond standard admin tooling
- Licensing purchases or procurement
- Ongoing IT administration or managed services
- Custom scripting or automation development
- Support for third-party integrations or non-Microsoft systems

ENGAGEMENT APPROACH

Discover	Assess	Recommend	Handoff
Review current administrative challenges and architectural history.	Analyze tenant health, administrative access, and service configurations.	Develop a roadmap for architectural and administrative optimization.	Present findings and discuss implementation or managed support services.

BUSINESS VALUE

This assessment helps you simplify IT administration, resolve persistent performance issues, and ensure your Microsoft 365 environment is built on a stable, scalable foundation.

AT A GLANCE

Duration	2 Weeks
Price	$3,500-$6,000
Solution areas	Modern Work, Knowledge & Insights

Start with a practical review.
