Data Protection Readiness Assessment for Microsoft 365

1-WEEK ASSESSMENT

PulseOne helps businesses evaluate their Microsoft 365 backup and recovery setup to ensure critical data is protected against accidental deletion or ransomware.

Many businesses mistakenly believe that Microsoft automatically backs up all their Microsoft 365 data. In reality, Microsoft's shared responsibility model requires you to protect your own data against accidental deletion, malicious insiders, and ransomware.

> The PulseOne Microsoft 365 Data Protection Readiness Assessment evaluates your current backup and recovery capabilities to ensure your business can survive a data loss event.

WHAT WE DO

We review your current data retention policies, litigation holds, and third-party backup solutions (if any) to identify vulnerabilities in your data protection strategy.

KEY DELIVERABLES

- Review of native Microsoft 365 retention policies
- Evaluation of current backup solutions
- Data loss risk analysis
- Recommendations for comprehensive data protection
- Executive presentation

WHO THIS IS FOR

- Small and mid-sized businesses running Microsoft 365
- Leaders who want a straight answer on where they stand

WHAT IS NOT INCLUDED

- Deployment or configuration of backup solutions
- Data restoration or recovery services
- Implementation of retention policies or litigation holds
- Compliance certification or regulatory audit support
- Licensing purchases or procurement
- Ongoing backup monitoring or managed services
- Deep data forensics or eDiscovery support
- Legal review of data retention obligations

ENGAGEMENT APPROACH

Discover	Assess	Recommend	Handoff
Review business continuity requirements and recovery objectives.	Analyze current retention policies and backup mechanisms.	Design a robust Microsoft 365 data protection strategy.	Present recommendations and discuss backup implementation services.

BUSINESS VALUE

Gain peace of mind knowing your critical business data is protected and recoverable, and ensure your data protection strategy meets compliance or cyber insurance requirements.
