# Compliance and Policy Readiness Assessment for Microsoft 365 2-WEEK ASSESSMENT

**PulseOne helps organizations map their compliance requirements to Microsoft 365 policy controls and design a framework for enforcing policies through Microsoft Intune and Purview.**

Businesses operating in regulated industries - or those handling sensitive data such as personal information, financial records, or healthcare data - face increasing pressure to demonstrate that their IT environment enforces documented compliance policies. Without a clear mapping between your compliance requirements and your Microsoft 365 configuration, you are exposed to both regulatory risk and audit failure.

> The PulseOne Microsoft 365 Compliance and Policy Readiness Assessment helps you understand where your current environment stands against your compliance obligations and provides a practical framework for enforcement using Microsoft Intune and Microsoft Purview.

## WHAT WE DO

We review your business compliance requirements (such as HIPAA, PII, or PCI-related controls) and map them against your current Microsoft 365 configuration. We then design a policy enforcement framework using Intune device compliance policies and Purview information protection controls.

## WHO THIS IS FOR

- Small and mid-sized businesses running Microsoft 365
- Leaders who want a straight answer on where they stand

## KEY DELIVERABLES

- Compliance requirements mapping (HIPAA, PII, PCI, or other applicable frameworks)
- Current-state Microsoft 365 policy gap analysis
- Microsoft Intune compliance policy design recommendations

*Full deliverable list provided with your proposal.*

## WHAT IS NOT INCLUDED

- Implementation or deployment of Intune compliance policies
- Configuration of Microsoft Purview sensitivity labels or DLP rules
- Legal interpretation of compliance regulations or requirements

*Full exclusion list provided with your proposal.*

## ENGAGEMENT APPROACH

| Discover | Assess | Recommend | Handoff |
|---|---|---|---|
| Review business compliance requirements and current Microsoft 365 policy configuration. | Map compliance obligations to existing controls and identify gaps. | Design a policy enforcement framework using Intune and Purview. | Present the compliance roadmap and discuss implementation or managed compliance services. |

## BUSINESS VALUE

Establish a clear, documented path to policy enforcement that reduces regulatory risk, supports audit readiness, and protects sensitive data across your Microsoft 365 environment.

## AT A GLANCE

| | |
|---|---|
| Duration | 2 Weeks |
| Price | $3,500-$6,000 |
| Solution areas | Cloud Security, Compliance |

## Schedule a readiness consultation.

Reach out to set up a 15-minute discovery call.
